

CARMEN EpiDoc Practice Workshop

June 21–23, 2022, Rome

Instructors

Elina Boeva (Sofia), Marta Fogagnolo (Bologna), in collaboration with Gabriel Bodard (London) and Paolo Monella (Roma)

Aims

This workshop will give students the opportunity to practice EpiDoc using their own inscriptions from the CARMEN project, or elsewhere, with a series of guided exercises, and live support from the instructors. Rather than tuition in new materials, this event seeks to consolidate previously acquired skills in text encoding and epigraphic markup through hands-on practice, questions and help. Your questions and encoding needs will dictate the content of the workshop.
